Gande Ravi Teja

Aspiring Software Engineer | Full Stack Developer

ganderaviteja66@gmail.com 7569036979 Hyderabad, INDIA

GandeRaviteja Gande RaviTeja **PORTFOLIO**

ABOUT ME

Aspiring Software Engineer with strong foundations in Data Structures, Algorithms, and Cloud Technologies. Experienced in building full-stack web applications using JavaScript, React, and Node.js. Skilled in Java, Python, REST APIs, and MongoDB with a strong interest in scalable software systems and problem solving.

EDUCATION

K L University, Hyderabad, Telangana.

2023-2027

B. Tech in Electronics & Communication Engineering with a specialization in Embedded System Design with a CGPA of 9.72.

Sri Chaitanya Junior College, Hyderabad, Telangana.

2021-2023 - Intermediate

Pursued MPC as my core subjectand scored 94%.

Sri Chaitanya Techno School, Hyderabad, Telangana.

2020-2021 - CBSE

An active and studious studentand Scored 75%

Experience

Finestesis

Full Stack Developer (Intern)

Duration: [02-2026 – Present]

1) Built and optimized middleware APIs using TypeScript, Node.js, and Express.js; improved backend scalability and request handling.
2) Implemented global error handling, standardized API responses, and request logging middleware; enhanced consistency and debugging.
3) Developed rate limiting and environment validation systems; improved API security and application reliability.

SKILLS

- **Programming Languages:** Java, Python, JavaScript, C.
- **Backend Development:** Node.js, REST APIs, Express.js
- **Frontend**: React.js, HTML, CSS, JavaScript
- **Database:** MongoDB
- **Core Concepts:** Data Structures, Algorithms, OOPS.
- **Tools & Version Control:** Git, GitHub.
- **Other:** Basic Machine Learning.

PROJECTS

- Movie Finder Web App with Real-Time Ratings and Trailer Access
  - Developed a movie discovery web application that allows users to search Telugu movies based on mood, genre, and preferences.
  - Integrated external REST APIs to fetch real-time movie ratings, details, and trailers.
  - Built a responsive and user-friendly interface for smooth navigation and improved user experience.
  - **Tech Stack**: HTML, CSS, JavaScript, REST APIs.

- Pooja Samagri E-Commerce Platform with Priest Booking System (DEVELOPING)
  - Developing a full-stack e-commerce platform for purchasing pooja samagri and booking priests online.
  - Implemented product catalog, cart management, and order processing using REST APIs.
  - Added voice analysis and multilingual support to improve accessibility and user interaction.
  - **Tech Stack:** HTML, CSS, JavaScript, React.js, Node.js, MongoDB.

Certifications

1) AWS Certified Cloud Practitioner.
2) MongoDB Associate Developer

Achievements

- **1st Place** - College Hackathon (Build-A-Thon)
- Qualified for **Regional Finale** – **NXP** Competition
