## SUMMARY

Electronics undergraduate with strong foundations in Java, Python, C, Data Structures and Algorithms, Object-Oriented Programming, API Development and software development principles. Experienced in developing scalable full-stack web applications using React.js, Node.js, Express.js, MongoDB, and REST APIs through internship and project work. Skilled in problem-solving, Debugging, Git-based version control, and collaborating in fast-paced development environments, with a strong interest in software engineering and AI-driven applications.

## SKILLS

- **Programming Languages:** Java, Python, C, JavaScript.
- **Full-Stack & Web:** React.js, Next.js, HTML5, CSS3, Node.js, Express.js, REST APIs.
- **Databases:** MongoDB, MySQL
- **Core Concepts:** Object-Oriented Programming, Data Structures and Algorithms.
- **Tools & Platforms:** Git, GitHub, VS Code, Render, Vercel, Linux.
- **AI Tools:** GitHub Copilot, Claude, Gemini, Cursor, Anti-Gravity

## WORK EXPERIENCE

FEB 2026 – MAY 2026

### Full stack Developer Intern - Finsentsis

- Developed scalable REST APIs using Node.js and Express.js, implementing middleware, logging, authentication, and standardized response handling
- Implemented global error handling, standardized API responses, and request logging middleware; enhanced consistency and debugging.
- Improved backend security using rate limiting, environment validation, and centralized error handling.

## EDUCATION

KL University, Hyderabad.

2023 – 2027

B. Tech in Electronics Communication Engineering

CGPA: 9.76

Sri Chaitanya Junior College, Hyderabad.

2021 – 2023

Telangana Board of Intermediate Education

94%

## PROJECTS

### Gen AI Job Preparation Web Application ([LIVE](#)) Tech Stack: MERN Stack, MongoDB, Vercel, Render, Git.

- Built a full-stack web app for interview preparation using Generative AI, including resume building, question generation.
- Designed responsive, reusable UI components to ensure a smooth user experience across devices.
- Integrated Generative AI APIs to provide resume analysis, interview question generation, personalized recommendations, and real-time feedback.

### Real-Time Chat Application ([LIVE](#))

Tech Stack: MERN Stack, REST APIs, MongoDB, Git, Firebase.

- Developed a real-time full-stack chat application using React.js and Firebase, enabling instant messaging with live synchronization.
- Designed a responsive UI and integrated Fire store for efficient backend communication and scalable user interactions.
- Improved operational efficiency through workflow automation.

### Movie Finder Web with Real-Time Ratings & Trailer Access ([LIVE](#)) Tech Stack: HTML, CSS, JavaScript, REST APIs

- Developed a movie discovery web application that allows users to search Telugu movies based on mood, genre, and preferences
- Integrated external REST APIs to fetch real-time movie ratings, details, and trailers
- Built a responsive and user-friendly interface for smooth navigation and improved user experience

## CERTIFICATIONS

- AWS Certified Cloud Practitioner (AWS)
- MongoDB Associate Developer

## ACHIEVEMENTS

- **1<sup>st</sup> Place** - College Hackathon (Build-A-Thon)
- Qualified for **Regional Finale** – NXP Competition
- Solved 750+ coding problems across CodeChef, LeetCode, and Codeforces, strengthening data structures, algorithms, complexity optimization, debugging, and problem-solving abilities.
